About Me

A highly driven and skilled IT professional with a robust background in software development and a passion for crafting efficient and innovative solutions. Currently enhancing expertise through an Industry-Ready Software Developer course, specializing in frontend and backend technologies, database management, and modern frameworks such as .NET Core, Angular, and Microsoft SQL Server. Proficient in developing dynamic and scalable web applications with a focus on performance and user experience.

Education

- Diploma in Software Development
Unicom TIC - Jaffna 2024 April- 2024 Dec
- Bachelor of Applied Information Technology (R)
SLTC Research University - Colombo (Part time) 2023 - Present
- NVQ Level 4 in ICT Technician
Ocean University of Sri Lanka - Trincomalee 2023 - 2024
- General Certified in Education (Advanced Level)
Subject Stream : Engineering Technology 2020 - 2022

Experience

- Trainee Full-Stack Developer
Unicom Tic 2024 - Present
 - Developed responsive web applications using Angular (frontend) and .NET Core (C#) (backend).
 - Designed and implemented RESTful APIs for seamless client-server communication.
 - Managed database operations and optimization using Microsoft SQL Server.
 - Focused on implementing scalable, secure, and efficient solutions aligned with project requirements.

Core competencies

- Proficient in frontend development using HTML5, CSS3, JavaScript, Angular, and Bootstrap.
- Experienced in backend development with .NET Core and RESTful APIs and server-side logic
- Experienced in version control using Git and GitHub, and deployment with Azure DevOps (CI/CD).
- Familiar with frameworks such as Entity Framework and LINQ
- Ability to create user-friendly interfaces with attention to design principles and usability.
- Adept in programming languages including C#, JavaScript, and TypeScript.
